

the Pent

Our most popular and best selling garage range that provides the customer with a quality fit for purpose building at a truly remarkable price.

Rearward sloping roof clad with Eternit fibre cement asbestos free (non-combustible) sheets secured with rust proof fixings onto primed fabricated angle iron roof trusses.

Market leading Hörmann fully retractable steel framed metal up and over door; pre-finished in white powder coating that requires little or no maintenance.

Factory manufactured woodwork all pretreated before delivery which requires minimal attention to retain its pleasing appearance. Note Lidget Concrete's attention to detail, with the attractive ship lap fascia fan above the door and a complimentary timber window if required.

As with all Lidget Concrete products these buildings are designed and constructed without compromise using only quality materials then expertly assembled to give exceptional value for money.

the Pent uPVC

After listening to our customers requirements and opinions Lidget Concrete have designed and produced a new virtually maintenance free Pent uPVC range. Constructed for no hassle living, this range of modern clean lined buildings offer the perfect solution for today's busy lifestyles.

- All external fascias are uPVC clad white.
- Dark Brown or Golden Oak is available on request.
